I was able to do a more custom report with the old web wplcs. The report I sent is a canned routine that only allows filtering by region when I generate it. If you open it in excel, filter for just inspectors chris dew and greg Stegman, that will narrow things down to about 40 or fifty lines of data that excludes Skagit and Whatcom counties.

Thanks Jerry. That should give me a good start. I will have to figure out where they discharge, so I might ask for some help on that.

I do remember the startup of WPLCS. I remember griping about it - now PCS makes me remember WPLCS fondly...

Dear Lisa;

I have prepared the draft approval report.
Please see the attached letter and let me
know if EPA's concerns have not been
addressed adequately. Thanks.
